

Native Species

Native Species:

Habitat:

What are some native species on the Eastern Shore?

1.

2.

3.

4.

Let's do some specific research:

What are three types of Butterflies that can be found on the shore:

1.

A. What type of Habitat do they require?

B. What do they Eat?

C. Interesting Facts

2.

A. What type of Habitat do they require?

B. What do they eat?

C. Interesting facts

3.

A. What type of Habitat do they require?

B. What do they eat?

C. Interesting facts

What are three types of birds that can be found on the Eastern Shore:

1.

A. What type of Habitat do they require?

B. What do they Eat?

C. Interesting Facts

2.

D. What type of Habitat do they require?

E. What do they eat?

F. Interesting facts

3.

A. What type of Habitat do they require?

D. What do they eat?

E. Interesting facts

What are three types of bats that can be found on the Eastern Shore:

1.

A. What type of Habitat do they require?

B. What do they Eat?

C. Interesting Facts

2.

A. What type of Habitat do they require?

B. What do they eat?

C. Interesting facts

3.

A. What type of Habitat do they require?

B. What do they eat?

C. Interesting facts

What are three types of plants that can be found on the Eastern Shore:

1.

2.

3.
